SUMMARY

Detail-oriented Software Developer with 4+ years of experience spanning front-end and full-stack development, blending a passion for clean, responsive design with deep technical expertise in Java, Spring Framework, and modern web technologies like React.Agile-driven team player focused on learning and building user-centric digital solutions that deliver business impact.

TECHNICAL SKILLS

Programming Languages:	Java, JavaScript, HTML, CSS, jQuery
Frameworks:	React.js, Bootstrap, Spring Boot, Spring MVC, Hibernate
Microservices Architecture:	RESTful APIs
Version Control:	Git, GitHub, Bitbucket
Agile Methodologies:	Scrum, Kanban
Security :	OWASP, OAuth, JWT, Security Frameworks
Databases:	MySQL, PostgreSQL, Oracle
Tools:	Maven, JIRA,NPM, Postman,Eclipse

WORK EXPERIENCE

Newgen Software (Senior Software Engineer)   June 2022 - present

-Developed and maintained microservices using Java and the Spring Framework to support high-volume applications.

-Collaborated with cross-functional teams following Agile methodologies, using tools like JIRA and Confluence for sprint planning and task tracking.

-Improved code quality and maintainability through comprehensive code reviews, Test-Driven Development (TDD), and automated CI/CD pipelines.

I-exceed Technology Sol.(Software Engineer)   August 2021 - April 2022

– Troubleshoot production issues and contribute to performance optimization.
– Participated in Agile team meetings and used Git for version control and collaborative development.
– Assisted in the integration of security features and best practices to ensure application compliance with industry standards

PROJECTS

Commercial Loan Origination Software (CLOS)   Know more..

–Led the integration of Newgen's Commercial Loan Origination Software (CLOS) with Factual Data, streamlining credit bureau access for financial institutions.
- Enhanced efficiency through real-time, automated lien and judgment verification, eliminating manual intervention.
- Spearheaded two-way system integration with core banking platforms, optimizing digital lending workflows.
-Improved credit assessment process by enabling seamless access to credit bureau reports and financial data.
-Accelerated loan processing and enhanced the customer experience for financial institutions.

Education

Raj Kumar Goel Institute of Technology   2016 - 2020

Bachelor of Technology in Computer Science and Engineering

Additional Skills

-Strong problem-solving and analytical skills

-Excellent communication and teamwork abilities

-Ability to work both independently and collaboratively
